

FigureLabs Affiliate Brief

Help researchers discover a simpler way to create scientific figures. Share FigureLabs with your audience and earn recurring commissions.

About Us

[FigureLabs](#) is an AI-native scientific illustration platform that turns text, images, documents, and data into figures for research publications. Built for STEM researchers, PhD students, postdocs, and lab teams, it brings generation, refinement, vectorization, and export into one workflow.

Influencer Affiliate Program

Partner with FigureLabs to create useful content for your audience and earn from the subscriptions you refer.

Earn 50% recurring commission on referred subscription payments for 12 months per customer.

Free to join, with a 60-day referral cookie and monthly payouts via Rewardful.

Creators We Love to Work With

You reach students or researchers, especially graduate students and STEM communities.

You enjoy exploring AI tools and sharing practical workflows.

You value learning and research integrity, and do not promote cheating.

Suggested Talking Points

Choose 2–3 points and show a real workflow.

1. Generate figures from text, images, PDFs, or sketches.
2. Refine details: edit text, redraw regions, remove backgrounds, recolor, or upscale.
3. Build on an infinite canvas with figures, labels, and annotations.
4. Export editable SVG or PowerPoint files.
5. Create clear, editable research flowcharts.
6. Turn CSV or Excel data into graphs with downloadable Python code.
7. Use FigureLabs directly in ChatGPT, Codex, or Claude.

Video Structure Suggestion

Video Structure:

Hook → Pain Point → Solution/Demo (show 2–3 points) → CTA (🎁 150 FREE Credits upon sign-up | 🔄 50 Free Daily Credits | ❤️ Invite a friend for 300 Credits!)

Suggested Hooks:

1. Stop using PowerPoint for research figures.
2. Your paper may need better figures, not better data.
3. Create a publication-ready figure in 15 minutes.
4. Stop drawing complex pathways by hand.
5. Turn a PDF abstract into an editable flowchart.

Do's & Don'ts

Do

Mention FigureLabs clearly, show it in use, and share your honest experience.

Include your referral link and #FigureLabs. Clearly disclose the affiliate relationship, for example with #ad or #sponsored.

Engage with audience questions and positive comments.

Do not

Mention competitors or present FigureLabs as a cheating tool.

Promise journal acceptance, guaranteed scientific accuracy, or results you have not verified.

Suggest AI replaces scientific review. Researchers should check figure accuracy before use.

Restrictions

Accepted channels only: **Instagram, YouTube, TikTok, and X**. Other platforms, personal websites, blogs, and coupon or discount sites are not accepted.

No paid promotion of affiliate links, including search ads, boosted posts, or other social ads. No bidding on FigureLabs brand terms or misspellings.

Do not impersonate FigureLabs through account names, domains, or branding. Normal brand mentions and #FigureLabs in organic content are welcome.

No doorway pages, deceptive redirects, spam, cookie stuffing, or interference with referral tracking.

Violations may result in suspension or termination of affiliate participation and loss of commissions from prohibited activity.

How to Get Started

1. Apply through the [FigureLabs affiliate page](#). Joining is free.
2. Once approved, get your unique referral link from your affiliate dashboard.
3. Create and share content on the accepted channels, then track referrals and commissions in your dashboard.
